More than 100 million people live in the Philippines, but a majority of them are living in deep poverty. Many people can't afford to send their small kids to school primarily because they have to work and earn money for the family. We have been many places in the Philippines where people can't afford a simple rice meal and when it comes to the medical treatment they just can't afford it.

The Philippines is situated in a "Ring of Fire" which means that natural disasters like Typhoons, flooding, earthquake etc. is some that happen often. There is always a need for relief work in the Philippines. Our charity program "Angel Relief" is working in depressed areas with deep poverty and in areas with natural disasters. Your help and support big or small make a great difference.
